[Personal-Website](#)

## Experience

- **Web Development Intern**  
@ **VirtualVigilantes**  
11/2023-12/2023
- **Frontend Intern**  
@**Salesqueen**  
**Software Solutions**  
06/2024-09/2024

## CERTIFICATIONS

- Udemy React Certificate
- GitHub Certificate
- Cisco Python Badge
- Cisco Data Analytics Badge

## TECHNICAL SKILLS

**Programming Languages:**

Java, Python, C++

**Web Technologies:**

HTML, CSS ,Tailwind CSS, Next.js, React.js

**Backend & Database:**

Node.js, Express.js, MySql,MongoDB

**Tools & Platforms:**

GitHub, Postman, Flutter, Android Studio.

**Other Skills:**

Object-Oriented Programming (OOP), Debugging, Analytical Problem Solving, Version Control

## Education

**MES Institute of Management and Career Courses (IMCC) ,Pune**

*Master of Computer Applications (MCA)*

Aug 2024 – May 2026 | **CGPA-9.35**

**MES Garware College of Commerce ,Pune**

*Bachelor of Business Administration in Computer Applications ,BBA(CA)*

Aug 2021 – May 2024| **CGPA-9.10**

## PROJECTS

**1. SuvamaRup – Jewellery Ecommerce Website | [Link](#)**

Designed and developed a full-stack jewellery e-commerce system with Admin and Client roles. Personally implemented user authentication using JWT, product CRUD operations, and PayPal payment integration. A key challenge was securing role-based routes and real-time payment handling, which I resolved through independent research on Express middleware and the PayPal API.

**Technologies Used:** ReactJS, Tailwind CSS, Redux, Node.js, Express.js, MongoDB, JWT, Postman,PayPal API

**2. Personal Portfolio Website | [Link](#)**

Designed and developed a responsive personal portfolio to showcase my projects, skills, and academic background. Focused on creating a clean and user-friendly interface with smooth navigation across sections like About, Projects, and Contact. A key challenge was managing component states efficiently, which I overcame through independent research and structured implementation.

**Technologies Used:** ReactJS, Tailwind CSS, Redux

**3. Electronic Device Billing System | [Link](#)**

Developed a desktop billing system to manage customers, products, billing, and reports. I worked on the Java Swing interface and backend integration with MySQL, ensuring accurate data handling and user-friendly design. A key challenge was linking the GUI with the database, which I solved through independent research on JDBC and event-driven programming.

**Technologies Used:** Java, MySQL, NetBeans IDE

## Soft Skills

Teamwork & Collaboration, Time Management, Problem Solving , Communication, Self-Learning & Initiative
